

De-bunkering services

CIMS Netherlands provides a complete package of services for the de-bunkering of your vessel: safe, compliant, quick, smooth, and hassle-free.

One-stop-shop

We take care of the whole de-bunkering process, from removing the fuel from your vessel, transporting, storing, and processing the bunker fuel within full compliance (product or waste) to taking care of the necessary paperwork.

How it works

Need de-bunkering services? This is how it works.

1.

De-bunkering inquiry

Contact us to request a quote and provide the **Bunker Delivery Note and Analysis Report** (if available) along with it.

Email: operations@cimsnetherlands.com

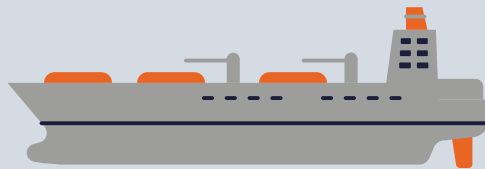

Call: +31 (0)85 0711 980

2.

Proposal

We will send you a proposal quickly based on the information you provided.

3.

Approval and planning

After acceptance of our proposal, our planning department will proceed with all necessary actions.

We take care of:

De-bunkering request for permission of the port authorities.

Transport arrangements.

Custom documentation.

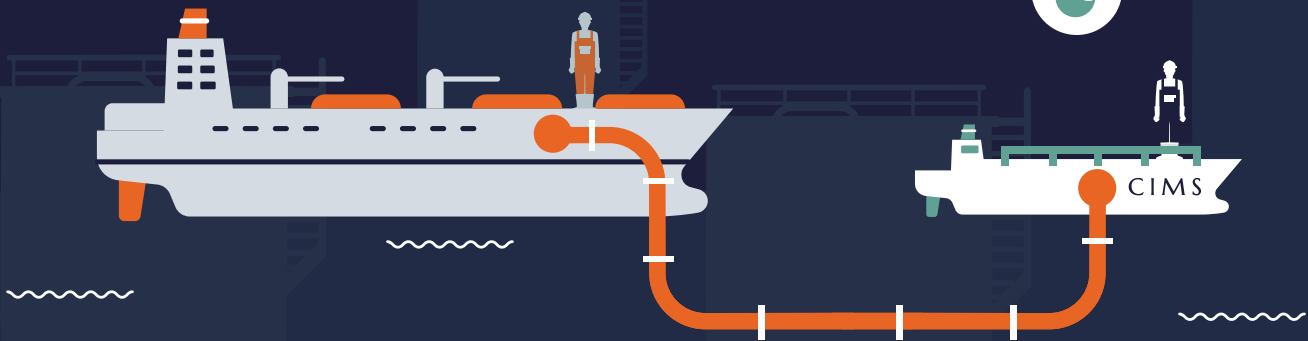

4.

Compliant and safe offloading

We offload the bunkers by means of a vessel pump or an external pump that we can supply.

Our highly experienced crew knows all procedures and compliance rules involved and will safely and smoothly de-bunker your vessel.

5.

Transport and processing

After offloading, your de-bunkered product will be transported and further processed within full compliance.

Conformity

Circular solution according to ISO and local guidelines.

Non-conformity

Processing as waste according to MARPOL and local guidelines.
